

WHO WE ARE

Europe Intermodal Istanbul Ltd. Sti. develops new economic and eco-friendly combined transport models for transportation and logistics companies with RoRo and Railway services between Türkiye and Europe. Headquartered in Istanbul, we provide fast and reliable intermodal solutions from the Turkish ports of Pendik, Mersin, Çeşme and Ambarlı via Trieste to Europe, using Kombiverkehr shuttle trains. Take advantage of our combined transport models and make an active contribution to environmental protection.

SERVICES & BENEFITS

- dual connection possibility by land route respectively by Rail + RoRo
- wide EU network with gateway connections
- assisting organisation of transit transports Turkey, to/from Middle & Far East
- assisting last mile delivery options
- assisting customs documentation
